CENTRAL FAX CENTER****JAN 26 2007****STATEMENT OF SUBSTANCE OF INTERVIEW**

Examiner Niland initiated a telephone conversation with Applicants' attorney on December 18, 2006. The Examiner indicated that he objected to the use of the designation VIB and VIIB in describing the acceptable components for element c of Claim 1. The Examiner pointed out that some acceptable compounds, such as Te, are listed in groups of the Periodic Table that do not use such a designation. The Examiner indicated that an amendment to recite that the designation V and VI would be acceptable, as it would cover all of the recited acceptable compounds. He further indicated that there was explicit support for such an amendment in the originally-filed specification.

Applicants' attorney agreed to authorize an Examiner's Amendment to reflect the change.

Respectfully submitted,

By

Robert S. Klemz
